The image shows several cross-sections of different plastic profiles. From top to bottom: a grey profile with a red stripe, a black profile with a white stripe, a solid red profile, and a solid black profile. The profiles have various internal shapes, including channels and grooves. A technical drawing of a window frame is visible in the background, with lines pointing to the profiles.

Od ponad 30 lat specjalizujemy się w wytłaczaniu profili z tworzyw sztucznych dla różnych gałęzi przemysłu. Nasza działalność obejmuje również projektowanie i budowę narzędzi do ekstruzji oraz realizację indywidualnych zamówień klientów na unikalne profile.

Thermoplast prowadzi działalność zgodnie z najwyższymi standardami zarządzania i produkcji, w tym zgodnie z Lean Manufacturing, 5S, a także posiada certyfikaty ISO 9001 i ISO 14001.

Doradcy techniczno-handlowi w firmie Thermoplast wspierają klientów zarówno przy zamówieniach na profile standardowe, jak również na każdym etapie zamówień indywidualnych.
